

Tomo

Welcome to Tomo Restaurant, where we serve contemporary Japanese cuisine. Our many delicious appetizers and sushi-bar items are designed for sharing. To ensure freshness, dishes will be brought to your table as they are prepared, whether in the kitchen or at the sushi bar.

So that we may maintain our high standards of quality and freshness, some menu items may not always be available. We regret that our chefs may not always be able to honor special requests during peak hours. NO personal checks please. Additionally, please inform our staff of any food allergies or special requests of food items, including Gluten Free menu items. We will try to acknowledge any requests, but some considerations may simply not be possible.
